RPL Program for the Auto Service Technicians  
launched by Vimla Devi, Surajpur  
(District Counselor) Chhattisgarh

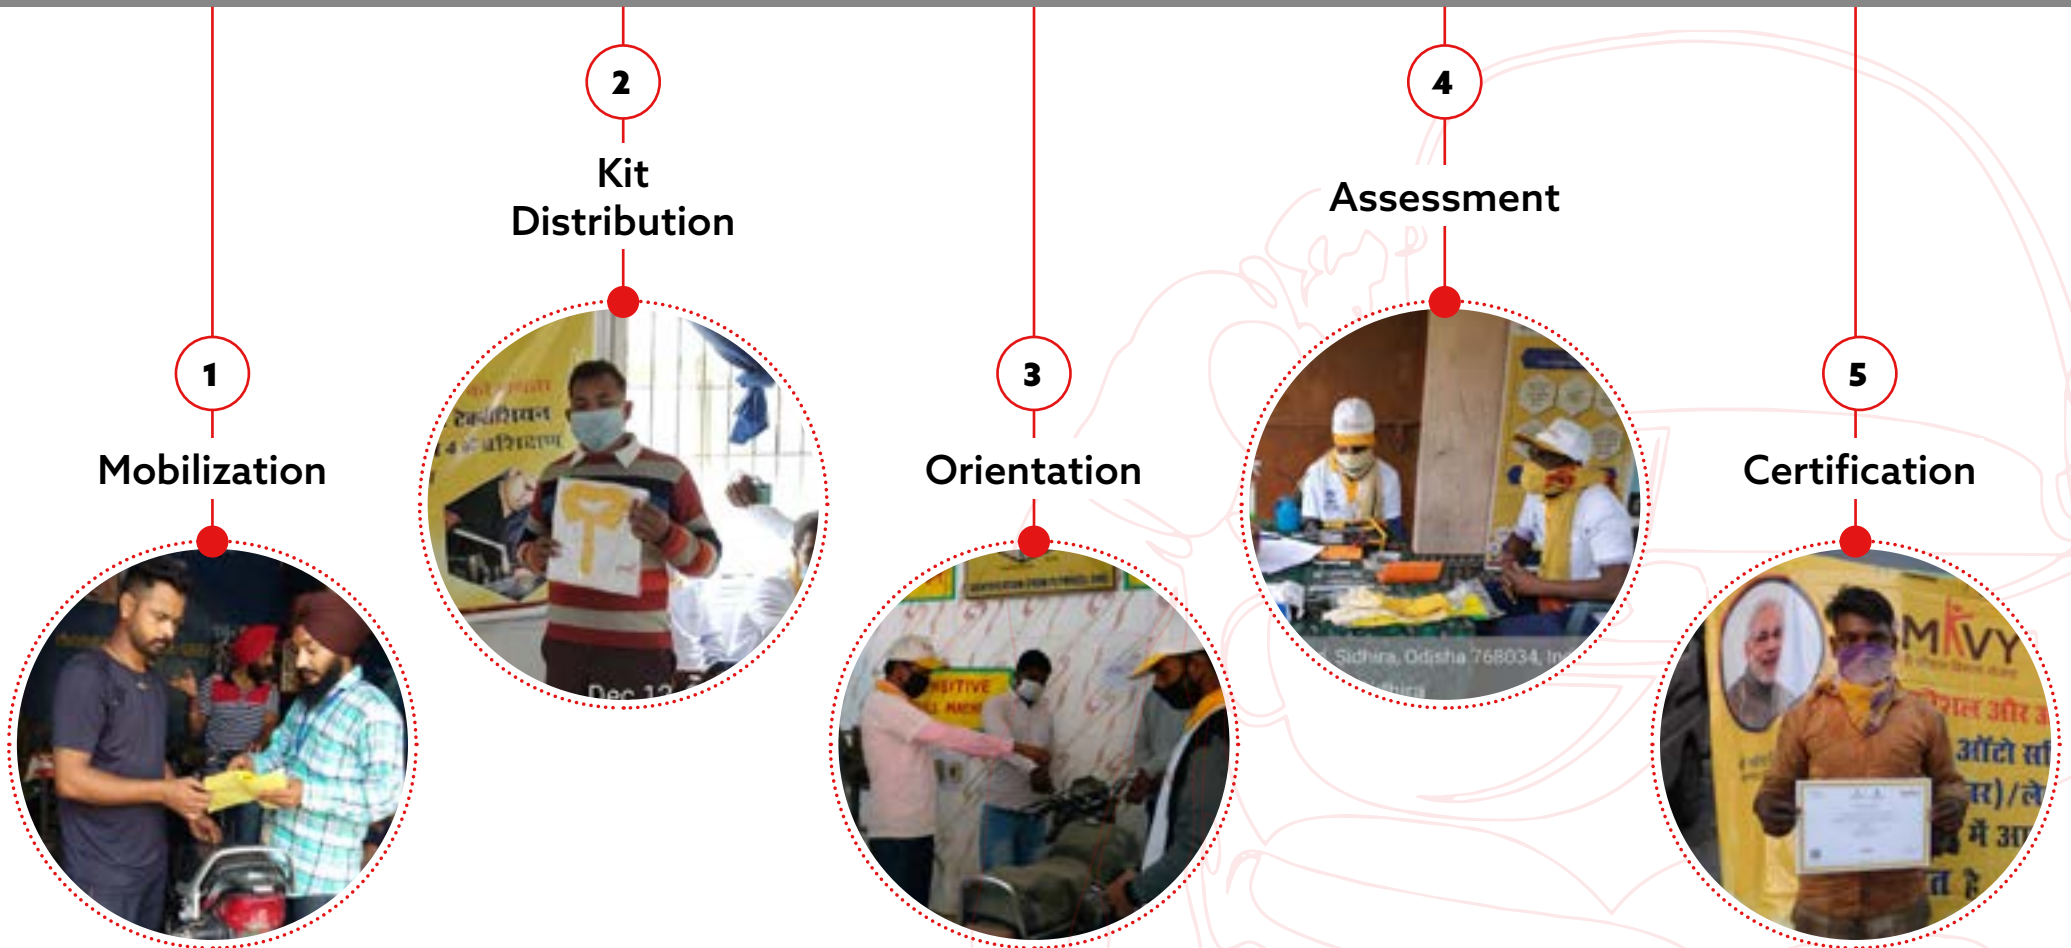

# Highlights of the Launch of the RPL Program

# RPL Process

# Mobilization Process

Automotive Skills Development Council's appointed RPL Facilitators appointed mobilizers, who worked closely with all stakeholders at the ground level, including Garage owners, local representatives, panchayats, et cetera for effective mobilization

Additional outreach channels and media such as distributing flyers, posters, banners in the respective localities and local shopping areas, community meetings, focused group discussions, et cetera were also deployed to ensure maximum penetration, and active participation of the community

**Satish Kushwaha**  
***Location - Indore***

I am running automotive workshop but i was not having any certificate of degree in this domain.

I took the RPL training under PMKVY and I participated in the training process in the month of November. I took my training in the service technician job role under Automotive Sector. I heard that through PMKVY the govt. of India is providing training and certificate for those who have a business stronghold and can have updated technology . The certificate and training seemed lucrative to me and that's why I participated.

I believe that this training will definitely create a difference for me and I am also interested to work outside this region. The trainers taught us well and the practical sessions were also beneficial for us. This training has also improved our working ability. Apart from that we also learned different interview skills required for a job. These training will definitely help me to grow my business.

**Kiran Sonar**  
***Location - MP***

I took my RPL training of service technician under automotive Sector in the month of November. I participated in the training process to learn more about the working skills required to become a proper and skilled frame maker technician. I heard about this training when I attended a campaign from NTI. On that time I decided to participate in this training process and got certified. The govt. is doing a great job by providing training and certificate free of cost for the upliftment of those who are semi-skilled. Those workers who are interested to work outside their home city will also get benefited by this training and certificate.

The training process was nice. The trainers tough a lot to help us to understand the different values and aspects of our job sector. The training process was so nice and lucid that I am now able to understand the complex processes related to my job.

# Success Stories

**Hameed Babu**  
***Location - Kanpur***

I am Hamid Babu. My educational qualification is class 10. I live with my parents in Kanpur. I started working in a Automotive repaire shop about 4 years ago. My father is running this shop since long time. I heard about RPL training from my friend and we together went for the training. The training was a two day session followed by a test. I get trained in frame maker goldsmith under Gems and Jewellery Sector. I heard that through PMKVY project our govt. is training those who are semi-skilled and also providing certificate after completion of training. This certificate boost my confidance as it is my first professional certificate and happy to have it.

**Shakti Singh**  
***Location - Kanpur Nagar***

I am Shakti Singh. My educational qualification is class 10 and I am living in Kanpur Nagar. I participated in a campaign by NTI where i cleared all my doubts related to RPL training of PMKVY. I participated in a RPL training process under PMKVY. I took my training on component maker under Automotive sector.

I found it useful where we learnet someting extra. The insurance benifit along with certificate is very good. Machanics don't take insurance.

I got certificate for it which gives me quite good feel as i got my professional certificate. I would like to thank govt for this owner.

**Revti Ram**

***Location - Surajpur***

Being from a poor family earning was tough and I was pushed in the business of vehicle repairs. The working was tough as vehicles were updated technically and old business was dying post the training from RPL of 3 days I have learnt a lot. This learning has helped me to work professionally with proper usage of tools and equipment. Now the customers are happy with my work and business is growing.

**Ramswaroop Singh**

***Location - Surajpur***

I have been taking care of my family since childhood as my father passed away long ago. Having dependents in different ages is very tough to handle and the pressure of business is accordingly very tough. When I was approached to be part of automotive trainings I was not sure about the outcome yet I am confident that it changes us in every aspect. I was working but never received such insights to handle manpower and service customers; now I earn more with less pressure of success. I can cope with the responsibility of the full family easily now.

# Success Stories

**Girish Yadav**  
***Location - Surajpur***

Working at the roadside shops is very tough specially when you have limited source of learnings and no one to guide you for the problems at hand. I have been handling different vehicles for the last 5 years and every time there has been new experiences to take home. I am glad to be trained by RPL which has given me the opportunity to learn new technology and my exposure has increased ever since.

**Santosh Kumar**  
***Location - Surajpur***

Four wheeler is only name sake when you are working hard, sweating out day and night but not learning enough. It take a lot of time and money to learn things but thankfully RPL came as a gift in disguise from God. I have learnt a lot and many things have improved since in the name of earnings and prospects. Now I am confident while handling problems and giving resolutions to earn more.

**हुनर की पहचान को दिया गया प्रशिक्षण**

नवादा। आईएल एंड एफएस कंपनी पटना के सौजन्य से पीएमकेवीवाई के आरपीएल परियोजना के तहत आटोमोटिव सेक्टर में काम करने वाले वर्कर्स का प्रशिक्षण कार्यक्रम चलाया गया। नवादा जिले के नवादा, वारिसलीगंज, हिंसुआ एवं अन्य प्रखंड के कुल 16 सौ लोगों को प्रशिक्षण दिया गया। यह प्रशिक्षण 9 जनवरी से 23 फरवरी तक चला।

मौखी आईटीआई परिसर में आयोजित प्रशिक्षण में निदेशक विनय कुमार सिंह ने बताया कि आटोमोटिव सेक्टर में कार्यरत वर्कर्स की हुनर की पहचान करना, उन्हें नई तकनीक की जानकारी देना एवं सरकार की योजनाओं से वर्कर्स को जोड़ने की लेकर प्रशिक्षण दिया गया। प्रशिक्षण के बाद प्रशिक्षुओं की परीक्षा लेकर केन्द्र सरकार द्वारा निर्गत प्रमाण पत्र दिया गया।
