ASC/N9809: Organize work and resources (Road Transportation)

Description

This NOS unit is about maintaining working environment safe and secure, maintaining health and hygiene and practicing optimizing use of resources as per organizational standards.

Scope

The scope covers the following :

- Maintain safe and secure working environment
- Maintain health and hygiene
- Material/energy conservation practices

Elements and Performance Criteria

Maintain safe and secure working environment

To be competent, the user/individual on the job must be able to:

- PC1. organize work as per the organization's health, safety and security policies and procedures
- PC2. identify the risks and hazards associated while driving and their causes and preventions
- PC3. check and ensure the functioning of vehicle before commencing work
- PC4. identify and report vehicle maintenance and repair requirements/risks as per SOP, if any
- PC5. take corrective measures and follow standard first-aid procedures in case of an accident
- PC6. ensure safety of all passengers and immediately report any breaches to the appropriate authority

Maintain health and hygiene

To be competent, the user/individual on the job must be able to:

- PC7. ensure vehicle and equipment are regularly cleaned and sanitized
- PC8. wash hands with soap and use alcohol-based sanitizer regularly
- PC9. avoid contact with ill people and self-isolate in a similar situation
- PC10. wear and dispose of PPEs regularly and appropriately
- PC11. report hygiene and sanitation issues to appropriate authority, if any
- PC12. follow processes specified for disposal of hazardous waste

Material/energy conservation practices

To be competent, the user/individual on the job must be able to:

- PC13. identify ways to optimize usage of fuel (Petrol/diesel/CNG) in the vehicle
- PC14. use resources in a responsible manner
- PC15. check for spills/leakages in the vehicle with caution
- PC16. plug spills/leakages of fuel (Petrol/diesel/CNG), oil/coolant or water from the vehicle and escalate to appropriate authority if unable to rectify
- PC17. report malfunctioning (fumes/sparks/emission/vibration/noise) and lapse in maintenance of the vehicle
- PC18. ensure the various equipment of the vehicle is properly connected

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1. organisations procedures for health, safety and security, individual role and responsibilities in this context
- KU2. organizations emergency procedures for different emergency situations and the importance of following the same
- KU3. how and when to report hazards, as well as the limits of responsibility for dealing with hazards
- KU4. potential hazards, risks and threats based on the nature of work
- KU5. efficient utilization of material and water
- KU6. common sources of pollution and ways to minimize it
- KU7. categorisation of waste into dry, wet, recyclable, non-recyclable and items of single-use plastics
- KU8. usage of different colours of dustbins
- KU9. significance of greening
- KU10. organisation's policies to maintain personal health and hygiene at the workplace
- KU11. helpline number related to the women safety
- KU12. standard first-aid procedures
- KU13. appropriate action to be taken in case of accidents, agitations, road block, etc.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1. read safety instructions/guidelines
- GS2. modify work practices to improve them
- GS3. ask for clarifications from superior about the job requirement
- GS4. work with supervisors/team members to carry out work related tasks
- GS5. complete tasks efficiently and accurately within the stipulated time
- GS6. inform/report to concerned person in case of any problem
- GS7. make timely decisions for efficient utilization of resources
- GS8. write in at least one language and complete written work with attention to detail
- GS9. be punctual, utilize time and manage workload efficiently

ASC/N9808: Interact effectively with colleagues and customers (Road Transportation)

Description

This NOS unit is about communicating effectively with colleagues and customers of all ages, genders and abilities.

Scope

The scope covers the following :

- Communicate effectively with colleagues and customer
- Interact with supervisor or superior

Elements and Performance Criteria

Communicate effectively with colleagues and customers

To be competent, the user/individual on the job must be able to:

- PC1. greet the customers promptly and appropriately as per the organization's procedure
- PC2. communicate with the customers, colleagues and others in a polite and professional manner
- PC3. address customers dis-satisfactions and complaints effectively, if any
- PC4. work in a manner that shows respect for all customers, colleagues and others
- PC5. ensure the quality of service caters to the specific needs of every individual, across all genders and age groups as per organizational standards
- PC6. adhere to the policies related to the prevention of sexual harassment, both physical and verbal
- PC7. provide assistance to persons with disability, if asked
- PC8. maintain positive and effective relationships with colleagues and customers
- PC9. show respect to the personal space of the others

Interact with supervisor or superior

To be competent, the user/individual on the job must be able to:

- PC10. identify work requirements basis instructions received from the supervisor
- PC11. escalate problems to superiors that cannot be handled
- PC12. report the completed trips and other data to the supervisor
- PC13. analyse customer/manager feedback and take appropriate action

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1. organizational service standards and policies on behavioral etiquette, professionalism and gender sensitive service practices at workplace
- KU2. organizational policy with regards to Persons with disability (PwD)

KU3. the importance of effective communication and establishing good working relationships with supervisor and customers

KU4. different methods of communication as per the circumstances

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. read instructions/guidelines/procedures

GS2. communicate effectively using an appropriate body language/tone

GS3. ask for clarification and advice from the concerned person

GS4. maintain positive and effective relationships with colleagues and customers

GS5. evaluate the possible solution(s) to the problem

GS6. deliver consistent and reliable service to customers

GS7. complete written work with attention to detail

GS8. check that the work meets customer requirements

ASC/N9704: Drive responsibly and ensure road worthiness of vehicle

Description

This OS unit is about examining the vehicle, conforming to standard driving practices, following traffic rules and regulations and managing vehicle faults while driving on the route to reach safely and on time.

Scope

The scope covers the following :

- Examine the vehicle before the trip
- Drive the LMV conforming to the standard driving practices
- Follow traffic rules and regulation
- Manage vehicle faults

Elements and Performance Criteria

Examine the vehicle before the trip

To be competent, the user/individual on the job must be able to:

- PC1. inspect and conform the vehicle's condition as per health and safety guidelines before starting the trip
- PC2. ensure the vehicle meets the legal and compliance requirements like pollution test, load limit, etc.
- PC3. perform routine maintenance checks on the vehicle for tyre pressure, fuel (Petrol/diesel/CNG) level, working of headlights and brakes, CNG cylinder valves etc.
- PC4. check vehicle service record for any history of technical defects or immediate need for servicing like oil/filter change, etc.
- PC5. prepare a to-do list for repair requirement, if any
- PC6. record all deviations observed while carrying out checks
- PC7. report actual or potential defects/deviations to the senior driver/owner/service supervisor
- PC8. determine roadworthiness of the vehicle and use another vehicle if the current vehicle is found unfit
- PC9. confirm all gauges and warning lights are functioning properly before moving the vehicle

Drive the LMV conforming to the standard driving practices

To be competent, the user/individual on the job must be able to:

- PC10. perform pre-driving activities like shoulder checking, adjusting IRVM/ ORVM and releasing of handbrakes, etc.
- PC11. insert or press the ignition key/button to start the vehicle
- PC12. coordinate gear changes, if any, with appropriate use of clutch/acceleration and steering control
- PC13. maneuver the vehicle safely and responsibly while regulating the speed in all weather and road conditions by coordinating the operation of all controls
- PC14. use the accelerator, steering control and brakes correctly for safe driving, stopping and parking the vehicle
- PC15. ensure maximum fuel (Petrol/diesel/CNG) efficiency while driving

Follow traffic rules and regulation

To be competent, the user/individual on the job must be able to:

PC16. follow guidelines on the road while driving like avoiding excessive honking, driving on high beam, loud music, etc.

PC17. maintain a safe distance from other vehicles

PC18. ensure the vehicle is within the prescribed speed limits at all times and avoid rod hog

PC19. ensure proper parking at appropriate spots

PC20. adhere to local and state specific driving laws and traffic regulations, including overloading

PC21. turn off ignition at red lights or after parking the vehicle to enhance fuel efficiency

Manage vehicle faults

To be competent, the user/individual on the job must be able to:

PC22. monitor and respond correctly to gauges, warning lights, CNG leakage etc. while driving

PC23. ensure to stop the vehicle at a safe place in case of any malfunction and turn off the ignition

PC24. carry out a quick diagnostic check

PC25. carry out minor adjustments or temporary repairs like replacement/top-up of oil, change of tyres/wipers, etc. if possible

PC26. report the exact nature of the problem to the supervisor to get appropriate help from the command office

PC27. take the vehicle to the service point for corrective action in case of major defect or accident

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. organization's policies on roadworthiness requirements, basic compliance to technical standards and safety requirements

KU2. quality norms and standards prescribed in the Quality Manual by the organization

KU3. standard check list to examine the vehicle before the trip

KU4. different sections and rules of Motor Vehicle Act, 1988

KU5. CMVR guidelines issued by MoRTH (Ministry of Road Transport & Highways)

KU6. guidelines issued by State Road Transport Authorities like RTOs

KU7. escalation procedure followed in the organization

KU8. basic functionalities of the technical equipment of the vehicle

KU9. safe and fuel-efficient driving techniques

KU10. basic troubleshooting techniques of the vehicle

KU11. latest traffic regulations

KU12. organizational procedure to take the vehicle to the service/repair point for corrective action like parts replacements

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. read safety instructions/guidelines/procedures

- GS2. communicate effectively with the passengers, supervisors and colleagues
- GS3. comply with all rules and regulations
- GS4. write in English/any one language
- GS5. make timely decisions for efficient utilization of resources
- GS6. complete tasks efficiently and accurately within stipulated time

ASC/N9701: Pick and drop the passenger to their destination and complete the trip

Description

This OS unit is about ensuring compliance to duty, liaising with the control room/depot/branch office/authorized person, escalating the problem to supervisor/authorized person, pick and dropping the passenger to their destination safely, and performing trip-end activities as per standards.

Scope

The scope covers the following :

- Ensure compliance to duty
- Liaise with the control room/depot/branch office/authorized person
- Escalate the problem to the supervisor/authorized person
- Drop the passenger safely at the destination
- Perform trip-end activities

Elements and Performance Criteria

Ensure compliance to duty

To be competent, the user/individual on the job must be able to:

- PC1. report to the authorised person on time as per the duty schedule
- PC2. wear proper uniform on duty and follow organizational safety policy for himself and passenger like PPE kit, face N95 masks, hand gloves, sanitiser spray, etc. as per standards

Liaise with the control room/depot/branch office/authorized person

To be competent, the user/individual on the job must be able to:

- PC3. obtain daily duty schedule from the reporting manager at the depo/branch office
- PC4. coordinate with control room regarding passenger details, pickup location, route and information about the traffic
- PC5. inform the reporting manager well in advance in case of sickness, leave or delay in reaching/picking up the passenger at their destination

Escalate the problem to supervisor/authorized person

To be competent, the user/individual on the job must be able to:

- PC6. report any vehicle defects or maintenance requirements to the authorised person as per SOP
- PC7. inform the authorized person about incidents like accidents, breakdowns, change in route/destination, unpaid trips, etc. happened during performing the duty if any

Drop the passenger safely at the destination

To be competent, the user/individual on the job must be able to:

- PC8. check and confirm the details of the passenger and destination before the pick-up
- PC9. reach the pick-up location on time and greet the passenger as per standards
- PC10. provide assistance to the passenger while entering and exiting the vehicle, if required
- PC11. assist passenger in loading their luggage and arranging them in the boot or at the appropriate place in the vehicle

PC12. secure the overhead luggage with waterproof/resistant sheets/cover in case of rainfall

PC13. offer newspaper, magazines, or entertainment media available inside the vehicle to the passenger as per the contract

Perform trip-end activities

To be competent, the user/individual on the job must be able to:

PC14. perform trip-end activities at the control room post dropping of the passenger like taking payments, providing receipt etc.

PC15. follow proper duty closure procedure on completion of tasks for the day like cleaning of vehicle, parking at the designated area, securing the vehicle, visual checks and handing over the vehicle keys to the manager

PC16. maintain a monthly vehicle log book to record the number of trips, daily run in km, repairs and fuel filled

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. organizational policies on duty, reporting, procedure and associated compliance

KU2. usage of PPE kit like face masks, hand gloves, use of sanitizer etc.

KU3. reporting structure of the organization

KU4. communication protocol and procedure for communicating with the control room/ authorised person during duty hours

KU5. standard escalation procedure followed during emergency situation

KU6. awareness of the geographical area and different routes within the city

KU7. usage of android devices running GPS or vehicle in-built navigation system

KU8. methods to calculate route fare/ per km rates within the city

KU9. SOP to prepare monthly vehicle log book

KU10. efficient driving practices using gear, clutch and brakes appropriately

KU11. SOP to keep the vehicle in proper condition by cleaning its vital parts for longer life span and vehicle fitness

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. read safety instructions/guidelines/procedures

GS2. communicate effectively with the passengers, supervisors and colleagues

GS3. comply with all rules and regulations

GS4. write in English/any one language

GS5. make timely decisions for efficient utilization of resources

GS6. complete tasks efficiently and accurately within stipulated time

ASC/N9606: Ensure roadworthiness of Electric Vehicle (EV)

Description

This NOS unit is about ensuring the roadworthiness of Electric vehicles before the trip and follow the relevant guidelines.

Scope

The scope covers the following :

- Ensure roadworthiness of Electric Vehicle
- Follow CMVR and State guidelines

Elements and Performance Criteria

Ensure roadworthiness of Electric Vehicle

To be competent, the user/individual on the job must be able to:

- PC1. identify the basics of driving an Electric Vehicle as against an Internal Combustion (IC) Engine
- PC2. ensure the availability of tools required for the basic maintenance of the EV as mentioned in the Work Instructions/SOPs
- PC3. ensure optimum charging in Electric Vehicle
- PC4. apply the OEM's Standard Operating Procedures (SOP) to identify the basic electrical/electronic faults
- PC5. identify maximum level of vehicle battery charging and different charging sockets
- PC6. identify dashboard's signs, signals, sensors, switches, gauges, Human Machine Interface (HMI) & Electronic Instrument Cluster (EIC)
- PC7. complete required statutory documents relevant to safety
- PC8. inform to concerned person in case of any problem

CMVR and state guidelines

To be competent, the user/individual on the job must be able to:

- PC9. follow CMVR (Central Motor Vehicle Rules) guidelines issued by MoRTH (Ministry of Road Transport & Highways)
- PC10. follow guidelines issued by RTOs and safety guidelines for EV issued by relevant authorities

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1. basic functionalities and driving techniques of the Electric Vehicle
- KU2. CMVR guidelines issued by MoRTH
- KU3. guidelines issued by RTOs and safety guidelines for EV issued by relevant authorities
- KU4. quality norms and standards prescribed in the Instructional Manual or SOP
- KU5. types of charging connector and time required for a full charge using either fast or slow chargers

- KU6. various type of batteries used in the EV and their maintenance procedures
- KU7. different functions related to battery
- KU8. usage of lights, ignition, electronic and air-conditioning systems etc. at various stages of battery
- KU9. related electronic systems including active and passive safety systems specific to EV
- KU10. different type of tools used to diagnose technical faults
- KU11. standard symbols and singages used in the EV

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1. read safety instructions/guidelines
- GS2. complete tasks efficiently and accurately within stipulated time
- GS3. make timely decisions for efficient utilization of resources
- GS4. write in English/any one language

PC1. identify the basics of driving an Electric Vehicle as against an Internal Combustion (IC) Engine	3	6	-	2
PC2. ensure the availability of tools required for the basic maintenance of the EV as mentioned in the Work Instructions/SOPs	3	5	-	2
PC3. ensure optimum charging in Electric Vehicle	3	5	-	2
PC4. apply the OEM's Standard Operating Procedures (SOP) to identify the basic electrical/electronic faults	3	5	-	2
PC5. identify maximum level of vehicle battery charging and different charging sockets	3	4	-	2
PC6. identify dashboard's signs, signals, sensors, switches, gauges, Human Machine Interface (HMI) & Electronic Instrument Cluster (EIC)	3	5	-	2
PC7. complete required statutory documents relevant to safety	4	5	-	2
PC8. inform to concerned person in case of any problem	2	5	-	1
<i>CMVR and state guidelines</i>	6	10	-	5
PC9. follow CMVR (Central Motor Vehicle Rules) guidelines issued by MoRTH (Ministry of Road Transport & Highways)	3	5	-	3
PC10. follow guidelines issued by RTOs and safety guidelines for EV issued by relevant authorities	3	5	-	2
NOS Total	30	50	-	20

National Occupational Standards (NOS) Parameters

NOS Code	ASC/N9606
NOS Name	Ensure roadworthiness of Electric Vehicle (EV)
Sector	Automotive
Sub-Sector	Road Transportation
Occupation	Driving
NSQF Level	3
Credits	TBD
Version	1.0
Next Review Date	NA

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down the proportion of marks for Theory and Skills Practical for each PC.
2. The assessment for the theory part will be based on the knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for the theory part for each candidate at each examination/training center (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.
6. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Minimum Aggregate Passing % at QP Level : 70

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Assessment Weightage

Compulsory NOS

National Occupational Standards	Theory Marks	Practical Marks	Project Marks	Viva Marks	Total Marks	Weightage
ASC/N9809.Organize work and resources (Road Transportation)	50	30	-	20	100	10
ASC/N9808.Interact effectively with colleagues and customers (Road Transportation)	50	30	-	20	100	15
ASC/N9704.Drive responsibly and ensure road worthiness of vehicle	30	50	-	20	100	30
ASC/N9701.Pick and drop the passenger to their destination and complete the trip	30	50	-	20	100	30
ASC/N9606.Ensure roadworthiness of Electric Vehicle (EV)	30	50	-	20	100	15
Total	190	210	-	100	500	100

Acronyms

NOS	National Occupational Standard(s)
NSQF	National Skills Qualifications Framework
QP	Qualifications Pack
TVET	Technical and Vocational Education and Training
ORVM	Outside Rear View Mirror
GPS	Global Positioning System
CMVR	Central Motor Vehicles Rules
RTO	Regional Transport Authority
MORTH	Ministry of Road Transport & Highways
RTO	Regional Transport Office
CMVR	Central Motor Vehicles Rules
HMI	Human Machine Interface
EIC	Electronic Instrument Cluster

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.
Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.

<p>Organisational Context</p>	<p>Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.</p>
<p>Technical Knowledge</p>	<p>Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.</p>
<p>Core Skills/ Generic Skills (GS)</p>	<p>Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today’s world. These skills are typically needed in any work environment in today’s world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.</p>
<p>Electives</p>	<p>Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.</p>
<p>Options</p>	<p>Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.</p>
